

agency to allow the State agency to monitor the activities. Confidential and proprietary material within such applications may be deleted.

§ 930.81 Federal permitting agency responsibility.

Following receipt of a State agency objection to a consistency certification related to Federal license or permit activities described in detail in an OCS plan, the Federal agency shall not issue any of such licenses or permits except as provided in subpart H of this part.

§ 930.82 Multiple permit review.

(a) A person submitting a consistency certification for Federal license or permit activities described in detail in an OCS plan is strongly encouraged to work with other Federal agencies in an effort to include, for consolidated State agency review, consistency certifications and supporting data and information applicable to OCS-related Federal license and permit activities affecting the coastal zone which are not required to be described in detail in OCS plans but which are subjected to State agency consistency review (e.g., Corps of Engineer permits for the placement of structures on the OCS and for dredging and the transportation of dredged material, Environmental Protection Agency air and water quality permits for offshore operations and onshore support and processing facilities, etc.). In the event the person does not consolidate such OCS-related permit activities with the State agency's review of the OCS plan, such activities will remain subject to individual State agency review under the requirements of subpart D of this part.

(b) A State agency objection to one or more of the OCS-related Federal license or permit activities submitted for consolidated review shall not prevent the person from receiving Federal agency approval (1) for those OCS-related license or permit activities found by the State agency to be consistent with the management program, and (2) for the license and permit activities described in detail in the OCS plan provided the State agency concurs with the consistency certification for such

plan. Similarly, a State agency objection to the consistency certification for an OCS plan shall not prevent the person from receiving Federal agency approval for those OCS-related license or permit activities determined by the State agency to be consistent with the management program.

§ 930.83 Amended or new OCS plans.

If the State agency objects to the person's OCS plan consistency certification, and if, pursuant to Subpart H, the Secretary does not determine that each of the objected to Federal license or permit activities described in detail in such plan is consistent with the objectives or purposes of the Act, or is necessary in the interest of national security, the person shall submit an amended or new plan to the Secretary of the Interior or designee and to the State agency along with a consistency certification and data and information necessary to support the new consistency determination. The data and information shall specifically describe modifications made to the original OCS plan, and the manner in which such modifications will ensure that all of the proposed Federal license or permit activities described in detail in the amended or new plan will be conducted in a manner consistent with the State's management program.

§ 930.84 Review of amended or new OCS plans; public notice.

(a) After receipt of a copy of the amended or new OCS plan, consistency certification, and accompanying data and information, State agency review shall begin.

(b) Following receipt of the material described in paragraph (a) of this section, the State agency shall ensure timely public notice of the proposed activities in accordance with the directives within §§ 930.61 through 930.62.

(c) The State agency shall concur with or object to the person's consistency certification in accordance with the directives within § 930.79, except that the applicable time period for purposes of concurrence by conclusive presumption shall be three months instead of six months.

(d) If the State agency issues a concurrence or is conclusively presumed to

concur with the person's new consistency certification, the person will not be required to submit additional consistency certifications and supporting information for State agency review at the time Federal applications are actually filed for the Federal licenses and permits to which such concurrence applies.

(e) Unless the State agency indicates otherwise, copies of Federal license and permit applications for activities described in detail in an amended or new OCS plan which has received State agency concurrence shall be sent by the person to the State agency to allow the State agency to monitor the activities. Confidential and proprietary material within such applications may be deleted.

§ 930.85 Continuing State agency objections.

If the State agency objects to the consistency certification for an amended or new OCS plan, the prohibition in § 930.81 against Federal agency approval of licenses or permits for activities described in detail in such a plan applies, further Secretarial review pursuant to subpart H may take place, and the development of an additional amended or new OCS plan and consistency certification may be required pursuant to §§ 930.83 through 930.84.

§ 930.86 Failure to comply substantially with an approved OCS plan.

(a) The Department of the Interior and State agencies shall cooperate in their efforts to monitor Federally licensed and permitted activities described in detail OCS plans to make certain that such activities continue to conform to both Federal and State requirements.

(b) If a State agency claims that a person is failing substantially to comply with an approved OCS plan subject to the requirements of this Subpart, and such failure allegedly involves the conduct of activities affecting the coastal zone in a manner that is not consistent with the approved management program, the State agency shall transmit its claim to the U.S. Geological Survey supervisor for the area involved. Such claim shall include: (1) A

description of the specific activity involved and the alleged lack of compliance with the OCS plan, and (2) a request for appropriate remedial action. A copy of the claim shall be sent to the person and the Assistant Administrator.

(c) If, after a reasonable time following a request for remedial action, the State agency still maintains that the person is failing to comply substantially with the OCS plan, the governor or section 306(c)(5) State agency (see § 930.18) may file a written objection with the Secretary. If the Secretary finds that the person is failing to comply substantially with the OCS plan, the person shall submit an amended or new OCS plan along with a consistency certification and supporting information to the Secretary of the Interior or designee and to the State agency. Following such a finding by the Secretary, the person shall comply with the originally approved OCS plan, or with interim orders issued jointly by the Secretary and the U.S. Geological Survey, pending approval of the amended or new OCS plan. The directives within §§ 930.83 through 930.85 shall apply to further State agency review of the consistency certification for the amended or new plan.

(d) A person shall be found to have failed substantially to comply with an approved OCS plan if the State agency claims and the Secretary finds that one or more of the activities described in detail in the OCS plan which affects the coastal zone are being conducted or are having a coastal zone effect substantially different than originally described by the person in the plan or accompanying information and, as a result, the activities are no longer being conducted in a manner consistent with the State's management program. The Secretary may make a finding that a person has failed substantially to comply with an approved OCS plan only after providing a reasonable opportunity for the person and the Secretary of the Interior to review the State agency's objection and to submit comments for the Secretary's consideration.
